Dear Mr. Eastep:

Attached is the "Notice Form for Existing Landfill Required to Notify by March 18, 1991" to comply with the requirements of 36 IAC 814.103. The following information is included as a supplement to this form.

Item II: The total remaining airspace for this facility is 4,640,000 cubic yards. Using a compaction factor of 2.0, the total remaining gate yards for the facility are 9,280,000 cubic yards. The expected future monthly gate volume for the facility is approximately 66,000 cubic yards. This equates to a daily volume of 3,000 cubic yards based on a five and one half day week. Given this expected gate rate, the facility is expected to accept its last volume of waste in September, 2002.

Item III: Subpart C - Remain Open Beyond September, 1997.

Since this facility is not in violation of any location restriction under 36 IAC 811, all other aspects of 36 IAC 811 can be complied with through site design and operation. Therefore, the facility will comply with this subpart by submitting a permit application (prior to September 18, 1994) that will provide plans and specifications that will demonstrate how the facility will comply with 36 IAC 811 Subpart C.

If you require additional information, please feel free to call me at 708/825-5000.

Sincerely,

LAND AND LAKES COMPANY

Notice Form For Existing Landfills Required to Notify by March 18, 1991
LPC-PA15 - FINAL

This form must be completed and returned to the IEPA, Division of Land Pollution Control to comply with the requirements of 35 IAC 814.103. This requirement applies to all Non Hazardous landfills (Note: landfills includes waste piles, but not impoundments), both permitted and not permitted, which were not closed by September 18, 1990. It establishes the minimum information necessary for the Agency to classify your facility and establish the applicability of 35 IAC Parts 811-815 of the Landfill regulations which became effective on September 18, 1990. **FORMS MUST BE SUBMITTED NO LATER THAN MARCH 18, 1991.**

Complete this form for the applicable facility or unit. Attach any additional information or plans as needed. Please contact the Solid Waste Unit, Permit Section at 217/782-6762 if you have any questions regarding completing this form.

Information in this document will be used in conjunction with reviews of future applications and reports. Therefore, you may be required to explain or document this information at sometime in the future which could be years from now. The filing of this form is in no way to be considered approval of the information contained therein by the Agency.
